

Vehicles are subject to vehicle pre-registration inspection through the "Parallel/Individual Imported Vehicles" method. After the vehicle is imported into Hong Kong, the applicant can access GovHK website (www.gov.hk) or visit the Vehicle Examination Centre to make an appointment for the vehicle inspection.

	Start accepting appointment time <b>Every week</b> (9:00 a.m.)	Reservation quota <sup>(b)</sup> <b>(Online)</b>	Appointment Quota <sup>(b)</sup> <b>(Visit the vehicle inspection center)</b>
Private car	First working day	90	50 <sup>(a)</sup>
Motorcycle	Second working day <sup>(c)</sup>	30	30

Note:

- (a) The Vehicle Examination Centre has set up an "urgent appointment" arrangement for parallel imported private cars. The quota is 10 per working day and appointments are made on a first-come, first-served basis for eligible and urgently needed applicants. Applicants need to visit the Vehicle Examination Centre in person and provide relevant documents, including a valid vehicle sales and purchase agreement and a valid application letter with properly signed with a company chop, to prove that the vehicle is in urgent need of registration to complete the vehicle sales transaction. Each company represented by an eligible applicant can only apply for one quota per day. If there is remaining quota, the company can apply again in line. If any day of the week is a public holiday, there will be no expedited arrangement on the holiday day.
- (b) The actual number of reservation quotas above will be adjusted according to the number of applicants and vehicle inspection personnel on duty.
- (c) If Monday is a holiday, appointment booking for motorcycles will start accepting reservations on the consecutive Wednesday.
- (d) With several new vehicles with the same model, the importer/applicant should apply through the "Type Approval" method. In addition to submission of the required documents, the importer/applicant is required to provide a sample vehicle for type evaluation and inspection. The "Type Approval" evaluation does not require examination fees and can effectively process numbers of applications of vehicles of the same model at the same time, which can save importers/applicants their time on vehicle inspection and registration for licence.
- (e) Under the principle of fairness, the total number of daily bookings under the same importer/applicant will be limited.
